

Kayode Popoola / Popeblack

Blockchain intelligence and global commercial leadership | CipherOwl / Secret Network Foundation

thepopeblack@gmail.com | [LinkedIn](#) | [Work & Evidence](#) | [Global / remote](#)

EXECUTIVE PROFILE

I work in blockchain intelligence and financial-crime analysis at CipherOwl while leading global sales and partnerships for privacy-focused blockchain and AI infrastructure at Secret Network Foundation. My commercial work connects prospects, teams and markets; my investigative work applies transaction research, OSINT and careful attribution to digital-asset risk. Both tracks are current.

SELECTED CURRENT WORK

CipherOwl Inc. - Blockchain Intelligence Analyst | Mar 2026-present

- Analyse transaction patterns, address/entity relationships and potential financial-crime typologies using on-chain and open-source evidence.
- Capture URLs, timestamps, screenshots and attribution rationale in defensible reports; client cases and outcomes remain confidential.

Secret Network Foundation - Head of Sales & Business Development | Mar 2026-present

- Lead international sales and business development, sourcing prospects and developing enterprise and ecosystem opportunities for privacy-focused infrastructure.
- Advance negotiation, activation and implementation with Foundation, product and technical colleagues; do not claim sole closure of team partnerships.

Secret Network - Business Development Manager / Associate | Apr 2024-Mar 2026

- Progressed from Associate to Manager, sourcing leads, introducing prospects, building relationships and advancing partnership opportunities with colleagues before promotion.
- Foundation reports document international partnerships and builder support across 2024-25; they do not assign each named deal to me individually.

Secret Network Africa - Lead | Feb 2022-Dec 2024 | part-time

- Developed regional education, university and developer relationships within a broader global ecosystem.
- The Foundation's Q2 2024 report names Popeblack for 12 weeks of Zero-to-Hero workshops; the wider Growth and DevRel team reported 38 developers onboarded.

NESTED SECRET ECOSYSTEM PROJECT

Fina / Fina Cash - Product and community growth project | Jun 2023-Apr 2025 | overlapping project

- Supported community, product and social marketing, user acquisition, campaigns, partnerships and wallet, card and staking adoption while also working with Secret.
- The Foundation's H2 2024 report records a \$60,000 grant, mainnet launch and first customers for Fina P2P; this is product proof, not a personal grant or Foundation-revenue claim.

Programmes, selected relationships and public evidence

SELECTED PROGRAMMES AND ENGAGEMENTS

Cosmos Hub Nigeria / Naija HackATOM - Founder & programme lead | independent initiative

- Led programme design, local partnerships and multi-city developer activation in Nigeria.
- ATOM Accelerator's public record names Cosmos Nigeria/Popeblack and records \$27,250 approved. The programme reports 500+ attendees and 50+ submissions; these are not Secret developer totals.

WhisperNode - Ecosystem communications engagement | descriptive role

- Managed social and community communications, outreach and partner support across validated networks; co-published WhisperNode Weekly issues credited to WhisperNode & Popeblack.

EARLIER COMMERCIAL FOUNDATION

Jumia Group - Senior Sales Consultant | Jun 2015-Dec 2021

- Worked across customer acquisition, product adoption, client service and cross-functional sales execution.

QuickTech Media - Graphics Editor / Creative Production Lead | Jan 2016-Jan 2022 | part-time

- Coordinated creative production, photography, design and stakeholder delivery for educational print projects.

WRITING AND INDEPENDENT COVERAGE

Bylined analysis: 'Inside the Hunt for the Bybit Billion: What Happens After Crypto Theft?' - Hacken, 4 September 2026. Read original. This is separate from earlier Bybit affiliate marketing and is not a CipherOwl client deliverable.

Independent profile: 'From Community Builder to Blockchain Investigator: Popeblack's Web3 Journey' - Jillian Godsil, Blockleaders, 25 September 2026. Read original.

CREDENTIALS AND SPEAKING

BBA, Business Administration and Management - Bayero University, Kano. Verifiable Sumsud training covers AML, transaction monitoring, KYC, business verification, the Travel Rule and fraud prevention. Training is not presented as years of investigative case experience.

[Recorded speaking includes Argentina's Encryption Day and Web3 Lagos. Cybertech Africa's official speaker listing names Pope Black. Details and verification links appear at popeblack.com/expertise.](#)

PUBLIC EVIDENCE INDEX

[Secret Q2 2024, pp. 15 and 30 - named 12-week workshop contribution and separate Growth/DevRel team result. Secret H2 2024, p. 30 - Fina P2P grant and launch.](#)

[Work & Evidence - personal work, team outcomes, source links and limits of attribution across Secret, Fina, Cosmos and CipherOwl.](#)

Revenue, deal, affiliate and product-growth figures awaiting Finance, CRM or product-analytics confirmation are not stated in this public CV.
